# About

## TMTHEMBU EPOXY SYSTEMS

**Welcome to TMTHEMBU EPOXY SYSTEMS, a trusted name in the world of epoxy resin and liquid epoxy and floor marking installation. With a legacy of many years in the industry, we have consistently delivered high-quality, innovative solutions to meet the diverse needs of our customers.**

### ■ Our Services

- Car Park Line Marking
- Industrial Line Marking
- Car Park Safety Features
- Bollard Installation
- Sports Courts Line Marking
- Disabled Car Parking
- Hatching Areas
- Warehouse Line Marking

## **OUR MARKING SERVICES:**

### **Car Park Line Marking**

Our car park line marking is designed to prevent mobility difficulties and directional confusion.

### **Industrial Line Marking**

Our longevity in the field makes us highly skilled in creating industrial line marking that promotes workspace safety, marking hazards and specified zones.

### **Car Park Safety Features**

Fashioned to clear out operation areas, our safety line marking adheres to the standards, improving vehicle and pedestrian safety.

### **Bollard Installation**

Speedy Line Markings ensure quality and efficiency in bollard installation in Sydney. We create precise markings to guide vehicle movement and protect pedestrians, improving overall traffic flow and reducing accidents.

### **Sports Courts Line Marking**

Enhance your community sports facilities with our professional sports court line marking services. We deliver precise, durable, and regulation-compliant markings for basketball, tennis, netball, and more, ensuring a polished and professional finish.

### **Disabled Car Parking**

Ensure accessibility and compliance with our professional disabled car parking line marking services. We create clearly marked, durable, and regulation-compliant spaces to enhance convenience and inclusivity for all.

### **Hatching Areas**

Maximise safety and organisation with our professional hatching area line marking services. We deliver precise, durable, and compliant markings to clearly define restricted zones and improve traffic flow in any space.

### **Warehouse Line Marking**

Optimize your warehouse operations with our professional warehouse line marking services. We provide clear, durable, and safety-compliant markings to improve workflow efficiency, designate areas, and enhance workplace safety.

### **Our Unique Value Proposition**

TMTHEMBU has all the necessary line marking services to cater to your unique line stripping needs. However, despite its importance, many bypass this task and do not hire professionals to oversee the work. This could lead to major issues in quality, safety and durability, which could have easily been fended off. test

Whether you need to mark out a car park or if you need an accessible parking spot for disabled people, our team of professionals can deliver and adapt to your unique requirements.

With a wealth of experience in the field of line marking and knowledge, we are more than capable of creating line markings that are fun, safe and made to endure.

## ■ Industrial & Commercial Flooring

- ▶ Epoxy Floor Coating
- ▶ Epoxy Flooring
- ▶ Industrial Epoxy Flooring
- ▶ PU Self level Flooring Service
- ▶ EPU Flooring
- ▶ ESD flooring
- ▶ P.U.Concrete Flooring
- ▶ Car Parking Flooring
- ▶ EPDM Coating

## Epoxy Floor Coating

Epoxy coating is a durable, protective substance used to prevent carbon steel tanks from degradation on the outside. Epoxy coatings offer superior resistance to abrasion, turbulence, harsh chemicals, and severe temperatures. Epoxy coating is not only long-lasting but also resistant to a wide range of corrosive substances. Epoxies are a popular option for diverse industrial coating applications, such as steel, aluminium, and concrete among others.

### Benefits:

- ▶ **Durable and Resistant**
- ▶ **Reduces Damage to Machinery**
- ▶ **Resistant to Chemicals**
- ▶ **Attractive Floor Surface**
- ▶ **Safe Working Environment**
- ▶ **Fast Application**

## Epoxy Flooring

TMTHEMBU EPOXY SYSTEMS is a epoxy flooring installer, provides best epoxy flooring service in almost all industrial and commercial verticals. Our Epoxy Flooring are the most commonly used in all types of material.

### Benefits:

- **Durable and Resistant.**
- **Reduces Damage to Machinery**
- **Resistant to Chemicals**
- **Attractive Floor Surface.**
- **Safe Working Environment.**
- **Environmentally Friendly**

## ■ Industrial Epoxy Flooring

Our Epoxy flooring services are extremely highlighted for its marvelous strength, life-long efficiency, appealing look, and easy maintenance. The coating is done perfectly according to customer's choice so as to provide complete satisfaction. Moreover, our skilled personnel firmly follow all quality parameters & standards in providing these services to certify fivestar level.

### **Benefits:**

- **Durable and Resistant.**
- **Reduces Damage to Machinery**
- **Resistant to Chemicals**
- **Attractive Floor Surface.**
- **Safe Working Environment.**
- **Environmentally Friendly**

## EPU Flooring

TMTHEMBU EPOXY SYSTEMS, the best EPU flooring installer in Pune, is unique as we combine the benefits of both epoxy and polyurethane for EPU floor coating. Epoxy Polyurethane hybrid flooring also known as flexo-hard flooring has a high amount of flexibility along with equally good toughness. TMTHEMBU EPOXY SYSTEMS offers EPU flooring at a very reasonable rate for all industrial and commercial verticals.

### Benefits:

- **High-grade abrasion strength properties.**
- **Ready in charming colours**
- **Exceptional adhesion to a substrate.**
- **Self-smoothing**
- **Shining exterior.**
- **Easy to perform.**

## ESD flooring -Antistatic/Electrostatic Epoxy Flooring

ESD flooring standards are based on an ESD flooring/footwear combination. Some, but not all, ESD floors also prevent charge generation – i.e., static from accumulating as people walk. Thus, it's critical to determine the type of footwear people will use in the space.

### Benefits:

- **Controls static discharge.**
- **Grounds people and products**
- **Durable**
- **Low maintenance**
- **Easy to clean**

## P.U.Concrete Flooring

PU concrete floorings do provide a matt finish and are insensitive to moisture in the base of the concrete floor surface. Hence these systems are ideally suitable not only as moisture-barrier underlays but also as stand-alone floor toppings that can resist high impact and abrasion and can withstand steam cleaning. The flooring system provides high-gloss, ultra-durable use in various commercial and industrial facilities.

### Benefits:

- **Excellent abrasion and impact resistance**
- **Seamless and hygienic finish.**
- **Easy to apply.**
- **Excellent resistance to a wide range of chemicals**
- **Solvent-free and low odour during installation.**

## ■ Road Marking

Road Marking's always serves as a visual barrier and signify the delineation of traffic path and the lateral clearance from traffic hazard for the safe, smooth and orderly movement of traffic. Apart from traffic guidance, they also serve as a tool for controlling, warning and providing information to road users.

## Benefits:

- **Exceptional Durability High**
- **Visibility**
- **Quick Drying and Curing**
- **Environmentally Friendly**
- **Resistance to Weather Extremes**
- **Cost-Effectiveness**

## Car Parking Flooring

Car parks are unique buildings in that almost all elements of the structure are normally exposed to the public. These constructions face unique challenges as well as exposure to niche stresses, not to mention substantial chemical and physical abuse.

### Benefits:

- It protects the surface
- It's easy to clean
- It has excellent fire ratings
- It dries faster than other coatings
- It looks exceptional, with a clean
- It reflects light, which adds to car park visibility and safety
